

2003

U.S. EPA CLIMATE PROTECTION AWARDS

APPLICATION DEADLINE: October 11, 2002

2003 CLIMATE PROTECTION AWARDS

Introduction

The Climate Protection Division of the U.S. Environmental Protection Agency (EPA) invites nominations for the 2003 Climate Protection Awards (see attached application form). This award program was established in 1998 to recognize exceptional leadership, personal dedication, and technical achievements in protecting the climate.

Background & Organization

The Climate Protection Awards began in 1998 and have been presented to 68 corporate, military, association and individual winners from 12 countries (Australia, Brazil, Canada, Chile, France, Italy, Japan, Netherlands, the Peoples Republic of China, Sweden, the United Kingdom, and the United States). These winners contribute to climate protection in a wide variety of fields. See Figure 1.

The U.S. EPA seeks nominations for outstanding leadership, personal dedication and technical achievements in reducing greenhouse gas emissions and protecting Earth's climate. Accomplishments can include stewardship, product introduction, pollution prevention, policy innovation, and engineering innovation.

Awards Panel and Procedure

Dr. Stephen O. Andersen, U.S. EPA, will assemble and chair an international panel of judges including representatives of previous Climate Protection Award winners. With the advice of this panel, EPA will make the final selection. The judges represent government, industry, and non-governmental organizations.

Instructions:

All applications must include an official cover letter from the nominator, a completed application form (Attachment 1), and a one page summary. Electronic forms are preferred. Since the judges are unable to visit facilities, applicants are encouraged to submit supporting materials such as photographs, technical descriptions, news clippings, and press releases. Neither the application nor the supporting materials will be returned.

Applications must be mailed, faxed or e-mailed no later than October 11, 2002.

Further information may be viewed at www.epa.gov/cppd/awards.html
